ABOUT US

Established in 1989, 'GEMMA' has become the leading manufacturer of high-end Ceramic and Porcelain tiles in Egypt and the Middle East. A renown name in Ceramics Industry; our tiles are recognized for matching beauty and variety with craftsmanship and durability. Today, our products enhance the appear-ance and function of homes and businesses in over 64 countries spanning the globe. In 2009, GEMMA expanded its production facilities with the opening of our new plant in Sadat City, an addition that placed us at the forefront of the global ceramics industry. Sophisticated production methods have allowed us to recreate the textures of stone, wood and sand, everything from metallic sheens to delicate floral ara-besques.

The luxury tile of Egypt

Our Mission

From day one, the company's ambitions extended far beyond simply making and selling products. It wanted to create 'The Best' complete solution – a lifestyle, an aura and a world of sensations that would connect with and grace the lives of customers who expect nothing less than the best.

Originality By Design

At the heart of GEMMA for the past quarter of a century has been a flair for original, contemporary, life-enhancing design. The company's design schemes are versatile and adaptable, sensitive to international trends, yet influenced by the rich decorative traditions of the region and the distinctive textures of the natural world.

Investing In Growth – Driven By Technology

For a quarter of a century, investment in cutting-edge technologies has been the driving force behind GEMMA's advancements in design, innovation and production capacity. It has made the company the leading manufacturer of high-end ceramic and porcelain tiles in the Middle East – and a respected design pioneer on the world stage.

Building A Worldwide Reputation

GEMMA upholds its international profile by exhibiting at the world's leading interior design exhibitions. Only the world's foremost producers are invited to attend prestigious trade fairs such as Cersaie in Bologna and Cevisama in Valencia. Here the most influential manufacturers, architects and designers come together to share inspiration and expertise, and to sample the very best in interior design from around the globe.

GEMMA has exhibited at Cersaie since the early nineties, with its presence growing exponentially throughout the years – an expansion that reflects GEMMA's growing reputation on the global stage.

Taking Tiles to New Territories

GEMMA's export story began in 1992 with its first-ever overseas shipment taking tiles to Russia, Ukraine and the wider Middle-East. Today, GEMMA is recognized as an internationally important ceramics producer and supplier, with a market penetration that reflects the trust clients have in the quality of its products and the reliability of its delivery services.
